DECLARATION OF EVANGELINE T. FINK

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Evangeline T. Fink, declare and state:

1. I am an executive assistant at FileNet Corporation.
2. As one of my duties as an executive assistant, I presented or sent the above-referenced U.S. patent application to Albert C. Brown, Philippe M. Burlina, Stephane Depuy, Shuang Wang, Damon Anderson, and Jacob Van Wingen, the joint and co-inventors in the above-referenced patent application, to obtain each inventor's signature on the declaration of inventorship for the patent application.
3. Albert C. Brown, Philippe M. Burlina, Stephane Depuy, Shuang Wang, and Jacob Van Wingen have signed and returned the declaration of inventorship. A true and correct copy of the declaration of inventorship signed by Albert C. Brown, Philippe M. Burlina, Stephane Depuy, Shuang Wang, and Jacob Van Wingen is attached hereto as Exhibit A.
4. Of the joint inventors, only Damon Anderson has not signed and returned the declaration of inventorship.
5. On March 18, 2004, I sent, via Federal Express, a copy of the above-referenced U.S. patent application, a declaration of inventorship, and an assignment to Damon Anderson at

App. No. : 10/758,954
Filed : January 16, 2004

his last known address of 3726 Connecticut Ave., N.W., #205, Washington, D.C. 20008. A true and correct copy of the foregoing materials that I sent to Damon Anderson on March 18, 2004 is attached hereto as Exhibit B.

6. On March 19, 2004 I received a verification email from Federal Express that indicates that the package I sent to Damon Anderson on March 18, 2004 was delivered to Damon Anderson's last known address on March 19, 2004. A true and correct copy of the delivery verification email is attached hereto as Exhibit C.

7. On two occasions on or about March 26, 2004 and April 16, 2004, I contacted Damon Anderson by telephone. Damon Anderson confirmed that he had received the package containing the application papers and declaration. I asked Damon Anderson to sign and return the documents, provided a suggestion for finding a notary in the Washington, D.C. area, and informed Damon Anderson that FileNet Corporation would pay the costs for having the documents notarized and returned.

8. On or about April 30, 2004, I attempted to contact Damon Anderson by telephone. Damon Anderson did not answer my call and I left a voicemail message asking him to sign and return the inventors' declaration.

9. Since April 30, 2004 until approximately the middle of June, I periodically attempted to contact Damon Anderson by telephone. Damon Anderson did not answer my phone call on any of these occasions. Accordingly, I have left voicemail messages asking Damon Anderson to sign and return the inventors' declaration. I have not received any response from Damon Anderson to my messages.

10. On June 7, 2004, I sent an email to Damon Anderson to remind him to sign and return the inventors' declaration. I have not received any response from Damon Anderson to this email. A true and correct copy of my June 7, 2004 email is attached hereto as Exhibit D.

11. I have not received, since April 16, 2004, any response from Damon Anderson to any communication attempt initiated by any FileNet employee.

12. In light of all of the foregoing circumstances, I believe that Damon Anderson's failure to respond to any FileNet Corporation communications since April 16, 2004 is a refusal, by Damon Anderson, to join in the above-referenced U.S. patent application.

13. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further declare

App. No. : 10/758,954
Filed : January 16, 2004

that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Shipping Label: Your shipment is complete

1. Use the 'Print' feature from your browser to send this page to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.

Re: U.S. Patent Application
Title: SYSTEM & METHOD OF MANAGING WEB CONTENT
U.S. Application No.: 10/758,954
Filed: January 16, 2004
Knobbe Reference: FILNTP.394A

Please review the enclosed formal patent documents - Declaration by Inventors and Assignment, along with a copy of the filed applications. I have also enclosed a copy of the letter from Ted Cannon of Knobbe Martens Olson & Bear LLP for more information.

If the papers are accurate and complete in their present form, please do the following:

- For inventors who are located outside FileNet's Costa Mesa and Kirkland offices, please sign and date the appropriate Assignments and Declaration in **blue ink** where indicated. Please note that the **Assignment must be notarized. Also, each inventor should execute the Assignment after the Declaration.**
 - You will be reimbursed for the notary expenses. Please fill out an expense report and attach the original receipt and send it to me for reimbursement.
- For inventors who are located in our Kirkland office, please see Donna Dorman who has the original documents for signature and she can assist you in getting them notarized.
- For the inventors located in Costa Mesa, please give me a call when you are ready to sign the documents and I will schedule a meeting with Gloria Stillinger so she can notarize the documents.

After execution, please return all the documents back to me and I will make copies and then send the originals to the Patent attorneys who will be filing it with the USPTO. **Our target date is Wed. 3/31/04.**

If you have any questions, please give me a call at (714) 327-3931. Thanks a lot for your cooperation.

Dear Chuck:

As you know, we filed the above-referenced patent applications without formal documents. We expect to receive within the next few months an official filing receipt and a Notice to File Missing Parts. In the Notice to File Missing Parts, the USPTO will require us to submit the formal documents. In anticipation, we have enclosed the formal documents for these patent applications, to be signed by the appropriate inventors. Please have each of the appropriate inventors sign these formal documents and return them to me as soon as possible.

Please review the enclosed Declaration by Inventors; Assignment; and, Power of Attorney by Assignee along with a copy of the filed applications. If the papers are accurate and complete in their present form, please have the inventors sign and date the appropriate Declarations and Assignments **in blue ink** where indicated. Please note that the Assignment must be notarized. **Also, each inventor should execute the Assignment after the Declaration. The Powers of Attorneys should be signed by Katie on the same day or later than the Assignment, but not before.** After execution, please return the papers to me for filing in the USPTO.

Filing the applications without formal documents can delay the prosecution of the application. If this application becomes eligible for patent term extension, any response made more than two months after the Notice to File Missing Parts is mailed may be deducted from the total term of any patent resulting from this application. Thus, it is important that the enclosed documents be signed and returned to us for submission as soon as possible.

As you know, under the official Rules of Practice in patent cases, a patent applicant is under an affirmative duty to disclose all information which is material to the examination of the application. The applicant includes: named inventors, assignee, and agents and attorneys acting on behalf of the inventors or assignee. The applicant is obligated to submit all "prior art" of which they are aware. We regularly satisfy that obligation by preparing and sending an information disclosure statement to the Patent and Trademark Office within three months after filing an application, and will include any prior patents discovered in any search we conducted for you; however, please advise us of any other prior art of which you are aware.

Prior art includes any publication which describes a device similar to that disclosed and claimed in the patent application, or which shows something sharing a significant common concept or feature with the invention for which a patent is sought. Any such publication which predates the date of invention or was published more than a year prior to the filing date of the application must be disclosed. Any doubts on this matter should be resolved in favor of disclosure.

Also included in prior art is any public use, disclosure or offering for sale of the invention or any relevant device in this country by the inventor or others, more than one year prior to the filing date of the application, or any knowledge or use of the invention by others in this country prior to your date of invention. This would include, for example, any prior patented or unpatented devices which you know of, particularly if they are closer to your invention than the references we discovered in the search. Photographs or brochures are usually the best way to show this prior art, if available. Again, all doubts should be resolved in favor of disclosure.

Failure to make a full disclosure, as described above, may seriously jeopardize the ability to enforce any patent that might issue. Furthermore, willful failure to provide pertinent information may be grounds for invalidating any subsequently issued patent and can result in an action for damages against the patent owner. Accordingly, please send copies of any prior art publications and information regarding any other prior art of which you are aware and to which you might have access, so that they may be incorporated in the list.

Please note that the duty of disclosure is ongoing throughout the pendency of the application. As such, any newly found prior art should also be promptly forwarded to us.
